

MATRIX

HEAVY DUTY STEP STOOL

It is equipped with a strong and comfortable large non-skid knurled aluminium platform.

Extruded non-skid aluminium steps (8 cm) are firmly welded to the frames.

The step-stool base is extremely wide in order to prevent side skid and rollover even if the user is standing on the platform edges.

Two devices block any fortuitous opening:
1) Aluminium bars
2) Automatic platform

Welding conforms to European Standard ISO 9000 EN287/1/2.

Product conforms to European Standard En131.

Thermo-shrinkable package.

knurled platform 40x30 cm
